

# Americans Step into "Sector of Disquietude" Giving Germans Surprise of Their Live

## TRUCKS RUSHED ACROSS FRANCE TO JOIN BATTLE.

**Crack Unit Overruns Objective in Quick Time, Taking Two-hundred Prisoners During Engagement.**

BY FREDERICK A. SMITH.

[ATLANTIC CABLE-EXCLUSIVE DISPATCH.]

WITH THE AMERICAN ARMY IN FRANCE, Aug. 28 (delayed).—A small unit of Americans again stepped into one of Gen. Ludendorff's "sectors of disquietude" this morning and gave the Germans a surprise which they will not soon forget.

At late last night, the German Seventh Division confronted Frenchmen, but this morning a barrage started and behind it advanced Americans. Two hundred prisoners were taken in short order north of the Soissons, near Juvisy.

These said they believed British troops had come to assist this new French drive until they were face to face with the Americans.

It was a crack American unit which was sent in alongside of a French division, also famed for its valor. The Yankees promptly justified the wisdom of their selection by making their objective and having to be restrained from advancing too far.

**GREAT SPECTACLE.**

The bringing up of this unit, affectionately termed by Gen. Mangin "the boys," was in itself a remarkable spectacle. Miles of French caissons loaded with United States troops and driven by Chinese chauffeurs rumbling along the roads toward the line, some of the trucks were the same old Paris buses in which Gen. Gallieni delivered his taxicab army to Manoury, thus saving Paris from Von Kluck in 1914.

The organization of hospitals and the bringing up of quantities of ammunition left no doubt in the minds of the troops that a scrap was cooking and the greatest hilarity was exhibited along roads. French and Americans exchanged salutes while the Chinese chauffeurs, who are great admirers of the American fighters, grinned and chuckled as they guided the big trucks through the shelled roads to the front.

**MERGE WITH HILLS.**

Once within marching distance of the line, the Americans slightly merged with the hills in such a way that despite the enemy's view from the hilltops, which made possible observation for miles, the presence of the new force was not discernible, and, therefore, today's developments were not suspected.

Some of the Yankees occupied camps with their tents pitched in the country about. The company headquarters almost immediately started work in the hills, which made possible observation for miles, the presence of the new force was not discernible, and, therefore, today's developments were not suspected.

Others exhausted by the ride, scooped out hollows in the sandy roadside and slept.

Chinese were sent except for the artillery exchanges until four men advanced to the relief of a French unit. Word was sent back by balloons and the relief was accomplished at 4:10 o'clock this morning.

**NEW CHAPTER.**

Three hours later a barrage led the way into a new chapter of war history, with the — moving forward like veterans. At 8:30 o'clock word was sent back by balloons and the relief was accomplished at 4:10 o'clock this morning.

**ANGELENO GETS PATENT FOR ADDING TYPEWRITER.**

[EXCLUSIVE DISPATCH.]

WASHINGTON, Sept. 1.—California have been granted patents as follows:

Elkinah Cole, Los Angeles, signal display.

Manfred C. Crawley, Los Angeles, assignor to Adograph Company; typewriter and computing machine.

Walter H. Drake, San Francisco, apparatus for producing articles from pulp.

Sailors Sublet for Ninety Days on Whole Wheat and Water; Many Under Doctor's Care.

[BY A. P. NIGHT WIRE.]

A PACIFIC PORT, Sept. 1.—Compelled to subsist for ninety days on a diet of whole wheat and water, many of the crew of a long overdue British barkentine with a cargo of wheat, which arrived yesterday from Australia, are under the care of physicians. The vessel was 185 days making a voyage which ordinarily takes from forty-two to seventy-five days.

Unfavorable winds, it was stated, caused the delay in passage. Owing to the delay the ship's food supplies ran out and only the wheat in the holds was available. From this, ground in a sausage machine, was made food for bread. The unsatisfactory bread caused an epidemic of scurvy.

**OLD HOTEL WRECKED BY HYDRANT FLOOD.**

[BY A. P. NIGHT WIRE.]

SEATTLE, Sept. 1.—No lives were lost when the Russell Hotel, a pioneer three-story frame structure, collapsed last night and crumpled into ruins after its timber and pile underpinning had been washed away by water from a broken hydrant.

Every room of the hotel was occupied, and the seventy-nine inmates are said to have lost all their personal effects in the wreckage. At the first signs of the building settling, however, police officers forced all occupants of the hotel to leave.

## TEUTONS' VIEWS OF AMERICANS.

Revising of Opinions Found Necessary at Times.

No Million There; Not Good Soldiers Anyway.

Berlin Regrets Loss of Big Steamships.

BY EDWIN L. JAMES.

[ATLANTIC CABLE-EXCLUSIVE DISPATCH.]

WITH THE AMERICAN ARMY IN FRANCE, Sept. 1.—German newspapers taken from prisoners of war show that the German journals are having an awful time explaining about the American army in France. While the Boche fighter is getting his own personal opinion about the Yankee fighting men, what he reads about them seems to depend on what paper he takes.

A list of excerpts from German journals of recent date express opinions running all the way from scorn to admiration for America's military effort.

For typical German logic, an editorial in the Kolnische Zeitung of August 20 is a gem. It explains the mistake of predicting that American troops could not be brought in force to Germany by saying it did not suppose Wilson would lead German and Allied ships for the job.

However, it assures the German soldiers that the soldiers to come from the United States will be by no means so good as those who have already fought in France. This choice bit of information follows:

"America has claimed to be able in a single month to send 200,000 men to France. Where would she get the 1,500,000 tons of material to transport these troops? She could not, she would need six German steamers stolen by Wilson, and sixty or so put at the disposal of England upon his own request."

**U-BOATS AGAIN.**

"But these ships could not suffice, and we know a good many of them have been put out of use; and that our submarines have sunk at least forty of them. As for the millions of American soldiers whose existence is announced, we shall not believe in them until authentic information has made their origin clear."

"Without any doubt we could not foresee that America, with her primitive view of the world, would steal the ships of neutral nations, make Spain her naval and out down transporters, and thus, to such extent as to reduce half-starved France to famine. Yet this is what has happened."

"Nevertheless the fears of our alarmists are unjustified. Not in three months training could America can afford to learn all the secrets of modern war. If America has been able to constitute the nucleus with which the British Empire has begun, the situation will change as soon as these choice troops are sent to the front. It will be interesting to know the effect produced on the morale of Allied troops by the enormous numbers they have suffered within the last few weeks."

**NOT SUPERMEN.**

"Americans are no supermen, especially from the military point of view, and America has not the requisites to form a soldier like ours. She has made an effort of which many would not have believed her capable. Well informed people know she cannot, before 1918 or 1920, exert the full strength of her military power."

In the Berliner Tageblatt, Director Henschen of the North German Lloyd Line tells in the annual report what he thinks of Americans in the war.

"From the point of view of tenacity and endurance, the Americans are almost equal to the British. From that in kind, so far as the American effort one cannot help respect the energy with which all problems have been grasped on the other side of the Atlantic."

"Economically and particularly from the point of view of interests, the loss of a large part of the German merchant marine by American intervention it would be foolish to deny it—has been a hard blow for Germany. The best and most precious of our steamers, some of which cannot be replaced, have been confiscated and are now being transported to France and England American troops and ammunition."

**WAR VICTIMS HONORED IN NEW YORK PRAYERS.**

WHOLE CITY HALTS MINUTE IN SILENT TRIBUTE TO BATTLE SACRIFICES.

[BY A. P. NIGHT WIRE.]

NEW YORK, Sept. 1.—New Yorkers paused today for a minute of silent prayer for those who have given their lives in the war.

When, at 5:55 p.m., a salute was fired at forts and cantonments near the city, every vehicle, street car and subway and elevated train halted, while passengers and pedestrians bowed their heads. Then, as the clocks struck 6, community choruses sang the "Star Spangled Banner," while men, women and children, each bringing a flower, raised great mounds as if decorating the graves of the fallen. A squadron of airplanes flying over the parks added their floral tributes.

This evening, at the ceremony arranged by the city of New York, mothers whose sons have sacrificed their all, each was given a medal of honor.

## NORTH RUSSIANS SEEK MONEY AID OF ALLIES

### RUSSIAN GOVERNMENT HAMPED BY LACK OF FINANCES.

BY ATLANTIC CABLE AND A. P. ARCHANGEL (Sund.) Aug. 31.—A delegation of members of the "Soviet" government, from the northern region of Russia, headed by President Tchekalovsky, arrived here today. The delegation, headed by David R. Francis, American Ambassador, and the other members here, as to the problem of the Allies aiding the new government financially.

The new government has been handicapped considerably by the loss of the late Soviet government, which was the removal of the available currency in the hands of the delegation reported conditions had been made possible by its envoys sent to villages in the territory now occupied by troops and those of the Allies. At a point about seventy-five miles from Archangel there is considerable military resistance facing Russian and Allied forces. The force is composed mostly of Czech mercenaries of the Soviet government and is equipped with arms.

## PRISONERS OF HUNS SHORTEN THEIR BELLS

BY A. P. CORRESPONDENCE.

MEMPHIS, Aug. 23.—"Suspect" are popular here," writes Capt. W. Morris to his relatives in the Memphis from a war prison camp. He explains by saying, "I have contributed one-third my belt to the salvage dump, could spare more."

Capt. Morris was a medical officer of the Scottish "Black Watch" regiment and was taken prisoner at Kemmel Hill last March. The Germans had put him to work on the wounded prisoners of the "Black Watch."

# RAILROAD MEN CAN'T MIX IN POLITICS, SAYS M'ADOO

## Sweeping Order Forbids Activity of Employees in Federal or State Elections.

WASHINGTON, Sept. 1.—Director-General McAdoo today ordered all railroad men, officials and employees alike, to keep out of politics.

Coming State and Federal elections, as well as the primary campaign, the director-general said, make it imperative that the conduct of all railroad men be so scrupulously guarded that there can be no charge of railroad influence.

Pointing out that while railroads were under private management it was common report that their participation in politics was widespread, McAdoo said under government ownership there are no longer private interests to serve.

"Under government control," says the announcement, "there is no incentive to officers and employees to engage in politics. On the contrary, they owe a high duty to the government to abstain therefrom."

McAdoo said that no railroad employee or employee may do any of the following:

1. Be an officer or member of any political committee or organization which solicits funds for political purposes.

2. Be a delegate, chairman or member of any political convention, caucus or receive funds for any political purpose or contribute to any political fund collected by an employee of any railroad, or any other employee of any State.

3. Engage in the conduct of any political campaign.

4. Attempt to coerce or intimidate any officer or employee in his political activity.

5. Violation of this rule, Mr. McAdoo says, will result in immediate dismissal.

## WILSON SAVES GAS; DRIVES TO CHURCH.

WASHINGTON, Sept. 1.—President and Mrs. Wilson drove to church today behind a pair of handsome bays, observing the Fuel Administration's ban upon the unnecessary use of automobiles on Sunday.

Secret service men, who usually trail the President on motorcycles, were along in a carriage.

# ALLIES' "DAILY DEFEATS" COMING NEARER GERMANY

BY GEORGE RENWICK.

ATLANTIC CABLE—EXCLUSIVE DISPATCH.

AMSTERDAM, Aug. 31.—The German people are still being fed on semi-official battle stories which magnify every movement into a frustrated attempt to break through on a big scale. Almost every hour some gigantic effort to decide the war in the Entente favor fails. Every edition of every German paper heralds British and French defeats. Once more the Entente reserves have been wiped out several times daily. The Germans are told that Hindenburg and Ludendorff control the situation completely.

The war correspondents are almost all silent and articles by military critics are few and far between. Colorless leading articles maintain that this is a purely defensive war on the part of Germany, the effect of which utterance is rather spoiled by the latest widely-circulated pamphlet of the Fatherland party in which the annexation of the Grand Duchy of Luxembourg is added to that organization's peace programme.

## Arizona Infantrymen "Swear Off" on Intoxicants Until War is Ended.

BY A. P. NIGHT WIRE.

CAMP KEARNY, Sept. 1.—The One Hundred and Fifty-eighth Infantry, formerly the First Arizona Infantry, now in France, lays claim to the right to call itself the "driest" regiment in the army. The men base this claim on the fact that the entire commissioned personnel of the regiment, soon after being mustered into Federal service, took an oath to drink no intoxicants until the present war is ended.

# WOMAN'S PARTY PLANS NATIONAL CAMPAIGN.

EXCLUSIVE DISPATCH.

WASHINGTON, Sept. 1.—A suffrage demonstration in Lafayette Park, opposite the White House, on Monday, September 16, a national conference the following week, and a whirlwind tour during October of the equal suffrage States where Senatorial elections will be held this fall form the plan of campaign announced today by which the National Woman's Party hopes to force the adoption by the Senate of the suffrage amendment which passed the House last January.

In a letter to the President, made public tonight by the organization, the directors approved and submitted a report denouncing the trade commission as an irresponsible body that has lost the confidence of the public and asking the President to remedy this condition by filling two existing vacancies in the membership with able men whose interests will be single to the commission's work.

# ROOSEVELT IS MENTIONED AS ENGLISH AMBASSADOR.

BY CHARLES H. GRANT.

ATLANTIC CABLE—EXCLUSIVE DISPATCH.

PARIS, Aug. 31.—Mention of Roosevelt's name in a list of possible successors to Ambassador Page, published in Paris papers today is enthusiastically received here alike by Americans and French. With German defeat assured if not actually in sight there has been much discussion of the part America must play in the gigantic task of arranging peace.

Roosevelt is regarded here as fundamentally sympathetic with Wilson's general ideas. The colonel has had wider experience and possesses greater experience in European relations than any other available man. It is pointed out that in his dealings with foreign governments, he has always shown rare sagacity, judgment and caution and has obtained results.

# FRENCH AIR PATROLS COVER 485,330 MILES.

BY ATLANTIC CABLE AND A. P.

PARIS, Sept. 1.—The activity of the naval aerial organizations was very intense during the month of July, according to a statement given out here. Captive balloons remained in action a total of 5546 hours, dirigibles 1311 hours and airplanes and hydro-airplanes 7432 hours. The aerial maritime patrols covered 485,330 miles. Enemy submarines were attacked fourteen times and numerous groups of mines were discovered.

# WAR TAX BILL REPORT TODAY.

## Debate on Revenue Measure Expected Thursday.

Prohibition and Water Power Development Pending.

More Vacation Recedes are Planned in September.

WASHINGTON, Sept. 1.—Congress tomorrow begins the tenth month of its present session with the war revenue bill as the principal task ahead. The national prohibition bill pending in the Senate, the water power development bill before the House, and other measures will be given consideration.

The revenue bill is to be reported tomorrow by the Ways and Means Committee for beginning of debate Thursday or Friday. Its passage there by the middle of September is expected.

After the House acts and while the bill is before the Senate committee, another series of vacation recesses are planned for both Senate and House, when there is no legislation demanding action.

Passage of the war-time prohibition bill is planned this week. It will be brought up again Tuesday, tomorrow's Senate session on the holiday being arranged solely for memorial services in honor of the late Senator Newlands of Nevada.

Woman suffrage advocates still are pressing for an early vote on the resolution pending in the Senate, but there is little prospect of a vote for several weeks, although its disposition before the November elections is planned.

Politics also promises to be given much attention in both branches of Congress. Senator Sherman of Illinois, has given notice that he expects to speak next Tuesday on "Unofficial and Personal Government."

# CUDAHY'S NAVAL GUARD SAVED; 24 YET MISSING.

WASHINGTON, Sept. 1.—Twenty-two members of the naval armed guard of the American steamer Joseph Cudahy, sunk by a submarine on August 17, have been brought safely into Atlantic ports by British steamers. The same ships had aboard sixteen civilian members of the Cudahy's crew, leaving unaccounted for only twenty-four of the sixty-two persons missing. Hopes are entertained for the rescue of the men still missing. The entire guard is accounted for.

# OUR FIRST BIRTHDAY ANNIVERSARY!

That was yesterday—September 1st. And the only satisfactory kind of a birthday is one from which one can look back and feel that the year has been a good one. We are proud to be able to say that thousands of people are glad that there is a MORRIS PLAN operating in Los Angeles.

We have loaned \$573,371.00 to 3703 people, to relieve some of the hardships due to misfortune beyond their control, sickness, accidents, etc., and to help others to better their conditions by improving their homes, increasing their business, taking a needed vacation or rest—a full dollar all sorts of things that need a lump sum of money which they had not been able to accumulate.

Also, we loaned \$124,100.00 to 1966 people to enable them to duty by purchasing Liberty Bonds, for which they are paying at the rate of \$1 per week for each \$50 per value of bonds. Many of them could not have helped their Government in any other way. Most of them will come back when the Fourth Liberty Loan Bonds are ready.

And the best of it, every year will find the MORRIS PLAN more and more important to the community. If you need our help come in and tell us about it.

Alleged Bootleggers: FOUR IN VENICE JAIL.

SOLDIER AND SAILOR TRY TO OBTAIN RELEASE OF MEN.

EFFORT IN VAIN.

(LOCAL CORRESPONDENCE.)

VENICE, Sept. 1.—Four men concerned in last night's riot near Loreal and Speedway, still in the City Jail, and the Department of Justice inspectors firm in their determination to take the entire matter into the United States court, Chief of Police Raymond said today that it necessary he will place his entire force at the disposal of the government in stopping bootlegging that always comes to the beach when a crowd of soldiers and sailors are expected.

The Chief said that very little liquor reached the enlisted men and it is getting harder for them all the time to buy a drink. Of course the saloons and cafes refuse to serve enlisted men and even the old saloon before departure, Baron Louis and straggling into a bar, has failed the men with an alcoholic thirst.

Curiously enough, most of the bootlegging has been done by the sailors. For the most part they have done very little business, but they have been inevitably spotted and their flask confiscated, besides being fined.

Several friends of the two soldiers and the sailor who were taken into custody last night, called at the police station this morning in a vain attempt to get their friends out. But the Police Chief said the men are up to Special Agent C. L. Keep.

MEN LEAVE THURSDAY.

(LOCAL CORRESPONDENCE.)

SANTA MONICA BEACH, Sept. 1.—Twenty-four selected men will leave the beach Thursday, bound for Camp Lewis. This time Chief Clerk Harry Stanley expects to have the boys entertained at Venice on their way to camp.

## MORE GOOD THAN EVERYTHING ELSE That Is What Tanlac Accomplished in Her Case.

Mrs. Catherine Little Had Suffered Ten Years.

Local Woman's Improvement Is Wonderful.

The list of testimonials in behalf of the merits of Tanlac grows daily as new tests of its powers are made. Mrs. Catherine A. Little, who resides at the Glencoe Hotel, 931 West 7th Street, in relating her experience with the medicine, said:

"I have suffered from stomach trouble and a general run-down condition for ten years, and had almost lost heart because I could get nothing to help me. I would build up so badly with gas after eating that I could hardly breathe and my heart acted so strangely that I became uneasy, fearing I had heart trouble. I was often afraid to eat anything as I knew so well what I would suffer afterwards. My nerves were so shattered that I could hardly sleep at all. The least noise would upset me. I was often sick in the mornings all tired out. I hardly knew what a well day was and had tried many things without results that I had almost despaired of getting anything to help me.

"My daughter from Miami, Arizona, told me of so many people there who had gotten fine results from Tanlac, that I concluded to see if it would do me any good. So about two weeks ago I bought a bottle from The Owl Drug Store and in just a few days there was a marked difference in my feelings. I am feeling better. I could eat most anything without it hurting me. Gas no longer forms on my stomach and I get more pleasure out of eating than I have in years. I don't suffer from palpitation and shortness of breath like I did, and it is perfectly wonderful the way my nerves have improved. I sleep splendidly, feel stronger and brighter, and have gained some weight already. I also have a daughter who is taking Tanlac and we are so pleased with our improvement that we are glad to tell everybody about it."

The food people eat does them absolutely no good unless they digest it. When you suffer from indigestion or other forms of stomach trouble, the food does you harm instead of good, because food which is not digested stays in the stomach and ferments, causing pain, swelling, gas on the stomach, shortness of breath, bad taste in the mouth, dizziness and many other disagreeable symptoms. If this condition is permitted to run on for an indefinite period, entire system becomes saturated with poisons and various complications are apt to result.

Mrs. Little's trouble was relieved by Tanlac simply because it tones up the vital organs, enables her to digest her food properly. In fact, there is no portion of the body that is not benefited by the helpful action of Tanlac, which begins its work by stimulating the digestive and assimilative organs, thereby enriching the blood and invigorating the whole system. Next, it enables the weak, worn-out stomach to thoroughly digest its food, permitting the nourishing products to be converted into blood, bone and muscle.

Tanlac is sold in Los Angeles, Pasadena, San Diego by The Owl Drug Co., under the personal direction of a special local representative.—Advertisement.

## HUNDRED MILLS TO GRIND SUGAR.

Beet Crop to Furnish Energy to Thousands of Our Soldiers.

(BY A. P. DAY WIRE.)

SAN FRANCISCO, Aug. 31.—Just 100 sugar beet mills in the United States are now ready to turn out sugar to furnish energy to our soldiers as soon as the harvesting of the sugar beet crop begins, according to advice received here from the United States Department of Agriculture.

Sixteen of the mills, with capacities ranging from a few hundred tons to 3000 tons each twenty-four hours, were built in 1915 to help handle the 1916 crop. Seventeen more were built in 1916 in these States: Wyoming, Idaho, Nebraska, Utah, Oregon, Colorado, Montana, Iowa, California and Washington.

California had the first sugar beet mill in the United States. This was built in 1870. The first sugar beet mill in the United States was built in 1870. The first sugar beet mill in the United States was built in 1870. The first sugar beet mill in the United States was built in 1870.

Fourth Annual Meet Starts at Exposition Park.

Matches Above Average for First-Day Play.

Tournament to be Resumed Early this Morning.

Yesterday was a busy day at the Exposition Park tennis courts when the fourth annual tennis tournament to decide Los Angeles city championships opened. The Red Sox and the Blue Sox were the main attractions. The matches were above average for first-day play.

In the men's singles, first round, Clarence Barker, last year's champion in the men's singles, defeated E. Tatum in a close contest, 6-3, 6-4, 6-2. Barker demonstrated that he is still playing his best game, which is a big feat for a player of his age.

In the women's singles, first round, Mrs. P. A. Hunkeler defeated E. Tatum in a close contest, 6-3, 6-4, 6-2. Barker demonstrated that he is still playing his best game, which is a big feat for a player of his age.

In the men's doubles, first round, Barker and Hunkeler defeated E. Tatum and Hunkeler in a close contest, 6-3, 6-4, 6-2. Barker demonstrated that he is still playing his best game, which is a big feat for a player of his age.

## EXPERT THINKS BIG FOUR OF CUBS HAS SHADE ON MOUND.

BY L. E. SANBORN.  
(EXCLUSIVE DISPATCH.)

CHICAGO, Sept. 1.—Pitching next to luck, has been the chief factor in determining victory and vanquished in previous world's series.

Consequently it is natural to scan the slabs of the American and National League champions of 1918 for possible dope on the outcome of the baseball derby which begins Wednesday.

Manager Mitchell of the Cubs probably will depend on his "big four," Vaughan, Tyler, Hendrix and Douglas, while Manager Barrow of the Red Sox will depend on his "big four," Ruth, Vaughn, Hendrix and Douglas.

The regular Cub staff is divided equally between right and left-handed pitchers, Vaughan and Tyler being the southpaws, as everyone hereabouts knows. The Red Sox quartette has only Ruth working with the left wing. Unless the unexpected happens, these eight men will do all the pitching in the series, without help from the second string.

## COLLEGES WILL MAKE SOLDIERS.

All Men of Draft Age to be Inducted Into Corps.

Members of Training Units will Get Allotment.

Want One Thousand Women for Service Overseas.

With the opening of the Southern colleges in a few days every male student of draft age who is physically fit will be a member of the Students' Army Training Corps. Men will be voluntarily inducted into the corps upon registration, and all others will be allowed to enroll for military instruction.

All inducted men are to receive \$50 a month and uniform. They will pay for their tuition, quarters and subsistence, and when a man's number is called he will thereafter receive commutation for quarters and rations and will continue his studies until such a time as the authorities may decide that he should be transferred to an officers' training camp or other special duty.

The military course will include at least six hours of drill each week and the pursuance of such studies as the government may determine.

**NOT EXEMPT.** Men drafted before the 19th inst. should request deferred classification of their draft board and transfer to the S.A.T.C. at their college or university. Such a transfer is by no means an exemption from military service, but merely a plan of the government to allow men to continue their college work while at the same time they receive military training. Drafted men are sent to a university or college instead of a cantonment. All enlistments are to be discontinued for the period of the war.

The S.A.T.C. is a step in the furtherance of the government's advocated "go-to-college campaign," and is taken primarily to utilize effectively the plant, equipment and facilities of educational institutions for selecting and training all kinds of officers and technical experts.

Such corps have been established by the War Department at the University of Southern California, Occidental College and Throop College, in addition to numerous smaller institutions.

**AS RECONSTRUCTION AIDES.** That 1909 from between the ages of 25 and 40 years, citizens of the United States or of allied countries, of strong physical build, with the equivalent of a high school education and qualified to teach disabled soldiers such crafts as knitting, weaving, paper mache, modeling, wood carving or metal working, are needed immediately in military hospitals overseas.

Such persons are given individual needs and are placed in the hands of good teachers, knowledge and skill in the particular occupation in the teaching, attractive and forceful personality, sympathy, tact, judgment and industry in the overseas service. Particularly, great ingenuity and cleverness will be necessary.

Military hospitals in the United States are also in need of aides.

## SAYS AUSTRIA IS STARVING.

(Continued from First Page.)

In Austria, Mrs. Nikcevic told of the high spirits of the American officers and doughboys she met en route through France, and the plentifulness of provisions at prices within reach of the poor in that country.

Atrocities just as brutal and revolting in detail as those of Belgium are visited upon the native Montenegrans by Austrian spies and soldiers, according to Mrs. Nikcevic. She declares a favorite pastime of the Austrians consisted in digging a grave in front of the home of some young Montenegrin youth, preferably a well-educated one, and then a triumphant march into the house, followed by cold-blooded murder without any cause, whatsoever, and the burial.

## RED CROSS AFFAIRS.

For Grand Opening.

The opening day for the Hollywood Red Cross shop and tea room at No. 1722 McCadden place has been set for Saturday afternoon, in addition to tea every afternoon, luncheon will be served every day from 11:30 until 2 o'clock.

The following women are to act as hostesses at the luncheon: Mrs. Strachan Barrett, Mrs. Alfred Bartlett, Mrs. Guy Hinkley, Mrs. Albert E. Holmes, Mrs. C. W. Cook, Mrs. Frederick A. Lord, Mrs. A. W. Lowmber, Mrs. Frederick M. Lyons, Mrs. Dalton, Mrs. Patterson, and Mrs. George Kemper Patterson.

Donations to the sinking fund are coming in all the time.

Previously acknowledged, \$15,986; Red Cross auxiliary of Hollywood Women's Club, \$100; Mrs. W. K. 119; Miss Bertha Wilkins, \$5; a friend, \$5; Broadway Department Store, \$150; Mrs. William Briggs, \$2; Mrs. Goldsmith, \$1; Mrs. Charles H. Cutler, \$1; total, \$691.76. The credit of \$30 to the Red Cross fund was given last week should have been \$20.56 from the employees of the A. F. Gilmore Oil Company, who gave to war relief a day's work a month to war relief.

There is already a very interesting collection of things to be sold in the shop and friends are requested to send things before the middle of next week, if possible, to avoid the rush at the last. Silver and other supplies for the tea room are still needed.

## NEW COAL RULINGS.

Dealers in Fuel Prohibited from Screening and Exchanging of Cloth Sacks.

The elimination by the retailer of all slack and dust in coal, through the method of screening, or the separation of lumps from small coal by forking or hand-picking, is prohibited after September 1st, according to Victor H. Rosetti, chairman of the local Fuel Committee. This order was issued by Albert E. Schwabacher, Federal Fuel Administrator for California, in the interest of economy and fuel conservation.

Coal for domestic purposes is screened at the mine before loading, but contains more or less waste, due to breakage in handling, which it has been the custom of the retailer to screen out before delivery to consumers. This practice must be discontinued, and heavy penalties are prescribed for violators thereof.

Another order which has been in effect for some time prohibits the leaving of any sacks containing coal, charcoal or fuel wood with the consumer; and this order has been repeated by the Fuel Administration, with further instructions that no more exchange of sacks will be permitted, and compelling all dealers to immediately secure any sacks now in the hands of consumers which are the property of the dealers.

## FOR INDEPENDENCE DAY.

Mexicans Plan Big Two Days' Celebration, with Speeches, Music and Carnival Parade.

Plans for the celebration of Mexican Independence Day, under the auspices of the Hidalgo Club and a special committee, have been practically completed. Sunday, the 16th inst., there will be an entertainment at Selig Zoo Park, commencing at 9 a.m., and lasting until the same hour on the evening of the 17th.

Starting at 5 o'clock in the evening, a programme will be presented in the Plaza, and a unique national act will take place at 11 o'clock, when all the Mexicans will join in their traditional "Independence Cry." The celebration will be the evening of September 15, 1918. At 8 a.m., the following day, the Mexicans will salute their flag with a battery of twenty-one guns. There will be a community singing of the national anthem, music by the band and a feast by the children and young people. From 10 o'clock until noon an impressive ceremonial parade will take place. At 2 o'clock at Lincoln Park there will be a programme. This will include an athletic carnival and ceremonial games. Beginning at 5 o'clock there will be an exhibition of stereoscopic views of Mexico and a concert by the children. This celebration is to be a fireworks exhibition.

## NEGROES DEPART.

Sixty-five Drafted Colored Men Given Ovation on Leaving for Camp Lewis.

A contingent of sixty-five colored men from local boards Nos. 11 and 15 left last night for Camp Lewis. They assembled at their draft board office and marched to the station at 5 o'clock, led by two bands.

The farewell reception was arranged by a committee consisting of Mrs. Shelton, Scott, Warner, Williams, Cunningham and Wells. There were about 1500 colored people at the depot to bid them farewell.

## FIRST LIBERTY SING AT SANTA MONICA.

(LOCAL CORRESPONDENCE.)

SANTA MONICA BEACH, Sept. 1.—A big crowd gathered at the Santa Monica pleasure pier this afternoon at the first "Liberty Sing." This was under the direction of Mrs. Percy Browne, a well-known local clubwoman and singer. S. V. Carle had a trained chorus of 200 voices to lead in singing patriotic songs. The band also played national airs. Two speakers from Los Angeles explained some of the reasons for the need of more money for the United States Treasury and showed how singing contributed to the fourth Liberty Loan was helping down the Kaiser.

## TO SPEED UP CHECKS TO DEPENDENTS.

GOVERNMENT MAKES NUMEROUS CHANGES IN HANDLING OF SERVICE MEN'S MONEY.

For the purpose of speeding up delivery of government checks to relatives of enlisted men, the following changes in the regulations have been made by the government.

From now on the Bureau of War Risk Insurance will handle allotments of only two amounts, \$15 and \$20. Formerly the allotment was on a sliding scale and had to be changed every time a man's pay was increased by promotion or otherwise. This necessitated between 100,000 and 200,000 changes per month. To save labor and speed up work, the Bureau of War Risk Insurance has now transferred to the War and Navy departments all allotments not carrying allowances. Temporary delay will be caused by these changes, but the final result will be greater promptness in serving the families of enlisted men.

In case of any delay or distress resulting from these changes, the Red Cross home service stands ready to relieve it by applying to Mrs. Benjamin Goldman or one of her assistants at No. 114 East Tenth street.

No changes will be made in the checks of Class A dependents. Men getting \$20 a month and allotting \$15 monthly to allot this amount and the government will continue to allow \$15 additional to the wife and the same amount as previously to each child.

Men getting over \$20 a month and wishing to allot more than \$15 a month to their families must send all their money through the War or Navy departments, as the Bureau of War Risk will handle only amounts of \$15.

Many men may decide that they do not wish to allot as much as be-

At a good rate of speed, the machine skidded and turned over, throwing the occupants to the pavement.

RELIGION AND LABOR AS FACTORS IN WAR.

Workers Use the Theme of Labor Day to Present Patriotic Lessons.

happiest whose citizens become personally responsible as exponents of the righteousness and life of Jesus Christ. They serve the nation and the nation best who serve Christ first. The same standards of right for persons must exist for nations. We cannot be short on personal righteousness and long on national and international righteousness.

The only substantial foundation stones of a nation are those persons who individually measure up to the standards of the sermon on the Mount. The man who is arrogant in his pride, is a rotten pillar in the nation's temple. Blessed are the meek, those who refuse to exalt themselves by forcing their neighbors down, for they shall be promoted at last and shall inherit the earth. Those who have the real spirit of meekness and brotherly consideration are the real pillars of democracy. Those who kill the spirit of pride in themselves and in the world are the heroes who shall help to that final settlement of the world's troubles.

Just as millions responded to the call of their country to destroy the establishments of an intolerable militarism, so millions must respond to the summons of Christ, for He invites men to be meek and lowly, unselfish and pure; for only these shall be the substantial foundation stones of that new order for which all the world is praying.

REV. W. W. WILLARD, FIRST CONGREGATIONAL.

There are many types and varieties of experience, but I call attention to four types of religious experience:

"First, mystical experience. A mystic is one who believes that you may have close contact with the Deity. This is perhaps the greatest road, and has transfused life. It is not common, but truly authentic.

"Second, the mental road. There is a call today for a rational, vital, earnest interpretation. Every age has its new theology, and a creed must be a live wire to bring God into the world.

"Third, the moral road. Doing duty, loving God and man is what thousands are now doing on the battlefield, and it is a great job for God and humanity.

"Fourth, the mutual or social road. Now, in this generation, this is more a passion than since the first years of Christianity, and the social approach includes all the others. The man who is not a social worker, is not towards God, and a life corresponding to it. The call is now for the public servant instead of the pillar saint.

"Tomorrow is Labor Day. The old paths of justice, freedom and brotherhood are being trod in the labor world, and good will must be the ultimate word there, as it must be with America and her allies."

DR. J. WHITCOMB BROUGH, TEMPLE BAPTIST CHURCH.

"The most tremendous burden in this world today is sin. It has tremendous power. It separates. The time of rest gives one the opportunity to think over life's lowered condition. Then he can go to some quiet spot and tell the Master all about it, and have the consciousness of forgiveness which means a rest and peace the world cannot give.

"Jesus says, 'Come unto me and I will give you rest. Take my yoke upon you and learn of me, for I am meek and lowly in heart, and ye shall find rest unto your souls; for my yoke is easy and my burden is light.' Rest is secured by submitting our wills to Christ's, and gladly, humbly, trusting Him to lead us into the right.

"Restfulness is like a fever. A fever-stricken man rolls from one side of his bed to the other. You cannot change his restlessness by giving him a new bed or a new pillow. The fever is within him. If he gains rest, then he must get that which Christ can give him within. Riches, fame, friends, circumstances—none of these things can furnish the rest which abides forever. The world will find its rest only by going to Jesus Christ and learning of Him."

REV. H. R. SMITH, IMMANUEL PRESBYTERIAN.

"A question frequently asked by the honest inquirer is this: 'How do you get saved?' Does God do it, or do you do it, or who does it? Dr. Smith's answer is this: 'The illustration of the drowning man, whose friend on the bank flings him a strong rope. The man on the shore, who saved him, is the rope, and then begins to live the saved life. He thanks his Saviour, puts off the old weather-stained garments, puts on the new clothes, goes right to the business of the saved life, and when he sees another drowning he co-operates in saving him.

"Is your faith merely an intellectual apprehension of certain things which happened long ago? Or is it merely an emotional leaning toward the historic Christ? Or is it practical service for Him?"

DR. CHARLES EDWARD LOCKE, FIRST METHODIST CHURCH.

"Kaiserism must be eliminated, for Kaiserism is cruelty and cruelty is savagery. As cruelty has been lessened among men, civilization has advanced. Jesus Christ came with the gospel of kindness, and as Christianity has advanced, cruelty has gradually disappeared. Feudalism was cruel, religious persecutions were cruel, slavery was cruel, the liquor traffic is cruel, industrial oppression is cruel; and all of these are gone, or going, as Christianity preaches its principles of brotherly love and sympathy and sacrifice.

"Autocracy is cruel, and Kaiserism is the most cruel form of all absolutism, and so Kaiserism must go. As a brilliant Englishman says: 'We have shared a vow with one another, that whatever rule or domination may hereafter arise in this world, it shall not be the rule of that power which, by its words—and still more by its deeds—has allied itself with the cruelty of nature, and adopting the worst of nature's methods has made it more cruel, in her own interest, to impose new sufferings and humiliations on the rest of mankind. Rather than to see this happen, it were better to perish and perish together. On that ground, if

#### A Plain Statement of Facts!

The stockholders of The New Yamato, Inc., are Japanese gentlemen of education and refinement, struggling to get on in this country. They came here, invested their money and for a time were fairly successful. Each man is an honest, conscientious worker, experienced in his particular line. In November, 1917, they went to an enormous expense in fitting up a new store on West 7th St. A general depression in business followed—then came drastic government restriction (a war measure) on the importation of their best selling lines of Oriental goods. This unforeseen combination of unfortunate circumstances crippled the finances of the corporation to such an extent that in March, 1918, creditors took charge of their affairs. Their stock and fixtures inventoried close to \$200,000, on which they owed approximately \$100,000. A special sale was started April 4th; since that time there has been

### \$60,000.00 Paid to Creditors

Forty thousand dollars remain to be paid to the creditors and it is the desire and determination of each of the stockholders of The New Yamato that the creditors be paid in full, regardless of the loss to each individual in the corporation. That's the reason and purpose of selling this stock at retail.

Kinecma.  
OF LOVE AND WAR."TILL I COME BACK TO YOU,"  
DE MILLE'S LATEST.

By Antony Anderson.

My eyes, aided and abetted by my glasses, glued themselves to three photoplays yesterday afternoon. My intelligence—if it please you—was also called upon, and it informed me that all three of these pictures are of the same level of mediocrity. Each of them good enough in its way, but not quite good enough to be classed as A-1.

One of them dealt entirely with the war, another had considerable to do with it, while the third told us only of love and betrayal. I suspect that war photoplays are difficult to write and are becoming increasingly so—but as the same seems to hold true in the case of stories of love and betrayal, my theory proves nothing at all. It's the deadly dearth of good scenarios, after all, and it is to be hoped that the recent books on scenario writing are being rushed in to the rescue of the situation.

"Till I Come Back to You" has many of the ingredients of a good old-fashioned melodrama, even to the preternaturally clever little-boy hero, George Stone, who is given as Jacques, the Belgian kidlet, who promised King Albert he would guard Belgium till the King came back to him. Jacques keeps good his word, too. George Stone is sweetly and impishly triumphant in the part. The photoplay has another hero, Capt. Jefferson Strong, a young American engineer, who does his bit for Belgium and the Allies with the smiling, splendid abandon that we all firmly believe to be typically American. Bryan Washburn makes a fine Capt. Strong.

Florence Vidor is the heroine, a Belgian woman married to Karl von Krutz, a German agent. Miss Vidor does not, for some reason, distinguish herself in this role. It may not be her fault. For, truth to tell, "Till I Come Back to You" is only an ingeniously clever photoplay, not a living work of art. It does not take rank with the most of Miss Marjorie's recent picture plays. And Winter Hall does not look in the least like King Albert of Belgium.

"His Birthright." Come we now to the second photoplay on our list, "His Birthright," in which Sessue Hayakawa is the particular star. This picture is given at Cline's Broadway in conjunction with a Toto comedy. It is a sequel to "Madam Butterfly" and the Allies Pinkerton has risen to the rank of admiral and is known as John Mil.

Woman Jumps from Auto to Escape Kidnapper.

Badly Injured in Tussle with the Motorist.

Pedestrian Rushes to Aid Victim; Accused Flees.

After riding her life in a leap from a speeding automobile, and a desperate struggle in the dark, Helen Hinkelmann, 19 years old, a clerk living at No. 540 North Hill street, was rescued from an unidentified kidnapper early yesterday morning when her cries for help brought Henry Gonzales, of No. 811 Bishop road, to the scene, near the Los Angeles brick yard, on Bishop road.

The young woman, who was lured into the automobile by deception, was badly injured and totally exhausted when her assailant finally dropped her and turned his attention to Gonzales.

"I'll kill you if you follow me," he called out, reaching into his pocket for a gun. He then jumped into the automobile and escaped.

According to Miss Hinkelmann's story to the police, she left a friend's house, at No. 2029 Pasadena avenue on the battlefield, where she was waiting for a car at Avenue 20 and Pasadena avenue. The man, driving a light roadster, passed the corner, slowed down, and backed up to where she was standing. He then told the girl the last car had gone and offered to take her into the city.

When the man left Bishop road and turned into a side street, Miss Hinkelmann, from the rear of the moving car, falling to the road and receiving severe contusions of the legs and shoulder. The assailant brought the automobile to a stop and caught the girl before she could attempt to rise to her feet.

The only description Miss Hinkelmann could give to the receiving Hospital attendants and Detectives Bean and Toomey, who were waiting on the case, is that the man was short and stocky, wore a dark suit and a cap.

GERMAN MUSIC MUST BECOME "VERBOTEN."

SPEAKER AT PATRIOTIC MEETING COMMENDS MUSICIANS FOR THEIR ACTION.

"German music, German art and German literature can be dispensed with during the war," declared Reynold B. Blight, in an address yesterday afternoon at the Normal Hill Center, under the auspices of the War Savings Campaign Committee. He also warmly commended the action of the local Musicians' Association in forbidding its members to play German music.

"There are three primary reasons why modern German music should be taboo," said Mr. Blight. "Music, especially the opera, has been used to inflame the popular imagination, to inculcate ideas of race supremacy and world domination, and to incite the hatred and contempt of other nations. Siegfried, Parsifal, Lohengrin and other heroes of German opera are interpreted to the German people as the allegorical symbols of the German superman, the sun total of all that is noble and noble in modern civilization."

"By proscribing German music and art, and forbidding the teaching of the German language during the war, we will show Germany that while her contribution to civilization is being destroyed, her own is only individual; that modern civilization is the product of the common possession of all nations, and that rather than accept the cynical philosophy, the crass materialistic spirit and the brutal domination of the present rulers of Germany, we are willing to sacrifice everything that Germany has given to the race in science, statecraft, economics, art and theology, and humanity would still be the gainer."

"Kaiserism must be crushed, and we will stop at nothing except dishonor to accomplish that result."

Sweetening for Soft Drinks. A substitute for sugar for sweetening soft drinks has been discovered by the bureau of chemistry of the Department of Agriculture, and will be given free to the industry in the hope that it will assist in the conservation of sugar. The bureau is prepared to furnish bottlers with sweetening formulae that will allow the actual sugar content in soft drinks to be cut to 50 per cent, or less, and at the same time will preserve the customary taste and quality of the beverages. Starch sugar, starch syrup, maltose syrup and honey are the bases of the substitutes used.

The bureau's specialists have cooperated with bottlers in using these to sweeten and give body to soft drinks. Their favorable opinions of the results have been sustained by four tastings made up of representatives of the bottling industry, bureau experts, representatives of the beverage trade, and women and children representing the consuming public.—[Scientific American.]

MAN IS SCALDED TO DEATH AT BIMINI.

Apparently overcome by the steam while taking a hot tub bath at Bimini yesterday evening, Henry Parsons, 60 years old, an aged contractor, living at No. 1032 North Bonnie street, fell into a tub of running hot water and was scalded to death.

Mr. Parsons, who was a sufferer from asthma, had been in the habit of going to the bath-house every Sunday evening for several years past. Last night, according to Detective Finlanson, who investigated the death, the dead man was stricken by the steam and losing consciousness fell into the tub of boiling water. The remains were taken to the establishment of Godeau and Mafinon. Little or nothing concerning the dead man could be learned by the police last night.

The discovery of the body was made by L. E. Moore, of No. 135 South Main street.

WOMAN TAKES LIFE.

Ill-health and Despondency, Due to Separation from Husband, is Given as Cause of Deed.

Ill-health and despondency because of her separation from her husband, caused Mrs. Minnie L. Swift, 53 years old, to commit suicide, yesterday evening, in the home of her daughter, Mrs. Courtland F. Day, No. 169 South Gramercy place, by inhaling gas. The remains are at the parlors of the Peck and Chase Company.

According to the report made by Detectives Blue and Burgess, who investigated the case, Mrs. Swift fixed a small tube to the heater in the bathroom, and then, entering a little dressing-room, round the corner from the bathroom, placed the tube in her mouth and wrapped a towel around her face.

Mrs. Swift, it is said, told neighbors yesterday morning that she was going away, though she did not say where. She was discovered when Mr. and Mrs. Day and three children, who had been enjoying an outing at the beach, returned home.

The whereabouts of Mrs. Swift, the widow, are unknown, it is said. He had been separated from his wife for some time and the police were unable to locate him last night.

AT THE HOSPITAL.

Stories of Heroic Fortitude of Our Soldiers Reported by "Stars and Stripes."

"Whoosh!" said the man on the cot, or some sound-like that, waking up out of his sleep minus a machine-gun bullet that he had brought to the hospital with him. Looking toward the door, he saw a postal service man on guard.

"Say," he inquired, "have I landed in a postoffice or a railway mail train?"

But it was perfectly all right. The postal service man was one of a group who had volunteered their services when a certain big hospital began to be a rather busy spot on the A.E.F. map not so many days since.

They were not the only nonmedical volunteers. An air service hospital was represented by a lieutenant and also many detachments of amateur litter bearers as there were men at the headquarters. And out of somewhere came a couple of squads of Engineers, bearing litter after litter through a maze of operating-rooms, X-ray rooms, wards and corridors, and departing, along toward morning, as unobtrusively and mysteriously as they had come. All of them—P. S. men, air service clerks and engineers—did their own work, too, every day, fagged out but happy.

Apparel in French can mean anything for a soldier. A cravat in a picture means only the tulle-like arrangement over the cot of a patient whose arm or leg has to be held suspended.
